2022-2023 Local Control and Accountability Plan

LCFF Budget Overview for Parents Page 2

Supplemental to the Annual Update to the 2021-22 LCAP Page 6

2022-2023 Local Control Accountability Plan:

- Plan Summary Page 14
- Engaging Education Partners Page 23
- Goals and Actions Page 27
- Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students Page 60
- Expenditure Tables Page 67
- Instructions Page 75
School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).
This chart shows the total general purpose revenue Napa Valley Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Napa Valley Unified School District is $218,550,265, of which $175,426,085 is Local Control Funding Formula (LCFF), $26,259,347 is other state funds, $2,027,931 is local funds, and $14,836,902 is federal funds. Of the $175,426,085 in LCFF Funds, $18,710,559 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Napa Valley Unified School District plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Napa Valley Unified School District plans to spend $232,807,185 for the 2022-23 school year. Of that amount, $18,710,559 is tied to actions/services in the LCAP and $214,096,626 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

**Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year**

In 2022-23, Napa Valley Unified School District is projecting it will receive $18,710,559 based on the enrollment of foster youth, English learner, and low-income students. Napa Valley Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Napa Valley Unified School District plans to spend $18,710,559 towards meeting this requirement, as described in the LCAP.
LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

This chart compares what Napa Valley Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Napa Valley Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, Napa Valley Unified School District's LCAP budgeted $16,521,962 for planned actions to increase or improve services for high needs students. Napa Valley Unified School District actually spent $16,521,962 for actions to increase or improve services for high needs students in 2021-22.

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

Funds provided in the Budget Act of 2021 that were not included in the LCAP adopted by the NVUSD in June of 2021 include:
- CARES Act
- ESSER III plan (board approved 10/14/2021)
- ELO Grant plan (board approved 5/27/2021)
- Educator Effectiveness Block Grant Plan (board approved 12/9/2021)

NVUSD utilized the information gained from engaging with our educational partners in the development of our LCAP to determine the use of these funds. A series of input sessions were held between January 2021 and June 2021 with community groups (Napa Valley Education Foundation, Board Advisory Committee and Parent Organizations, Superintendent’s Parent Advisory, DELAC, Title I DAC) to gather input on the development of the District’s LCAP. In addition, an electronic survey was distributed to parents, students and staff for additional input. At all meetings with Spanish speaking parents or community members, interpretation was provided or information was presented in Spanish (e.g., Spanish PowerPoint). Groups were presented with information about the funding process, current action steps written into the 2020-2021 three-year plan, method of progress monitoring (California Dashboard) and funding for the 2020-2021 school year. Participants provided
input on current needs or priorities. Groups discussed district data (as available from CDE and including the Dashboard) and the actions/services provided to students and families. Ideas were synthesized to address the needs of (a) all students; and, (b) Unduplicated Pupils (English Learners, Foster Youth, Special Education, low socio-economic status) and students with IEPs, to meet 8 state priorities and our six district goals. These engagement opportunities contributed to the development of NVUSD’s LCAP and various spending plans for ESSER III, Expanded Learning Opportunities Grant and Educator Effectiveness Grant.

NVUSD's educational partners provided input during the following sessions:

Community Groups:
Board Advisory - Curriculum & Student Support Committee - 2/17/2021
Napa Valley Education Foundation - 2/10/2021

Bargaining Units:
Napa Valley Educators’ Association (NVEA) - 2/22/2021
California School Employees Association (CSEA) - 2/4/2021
National Association of Pupil Services (NAPS) - 2/25/2021

Parent Groups:
District English Learner Advisory Committee (DELAC) - Introduction: 2/17/2021; Follow-up: 3/17/2021 Final Review: 6/2/2021
District Title 1 Advisory Committee (DAC) - Introduction: 3/10/2021; Follow-up: 4/28/2021; Final Review: 5/26/2021
Superintendent's Parent Advisory Committee - 2/22/2021
SELPA - Community Action Council - 3/15/2021

Surveys (English and Spanish):
Parent Input - 381 responses
Student Input - 270 responses
Staff Input - 247 responses

Staff Groups:
Management Team - 2/22/2021
Superintendent’s Teacher Advisory Committee - 2/18/2021
Instructional Support Services Staff - 2/22/2021
District Academic Specialists - 2/22/2021
Counseling/Social Worker Team - 2/10/2021
Intervention Teachers - 2/10/2021
School Site Leadership - 3/3/2021, 3/10/2021
A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

The following sites have an enrollment of unduplicated student groups greater than 55%: Bel Aire Park Elementary, Donaldson Way Elementary, McPherson Elementary, Napa Junction Elementary, Napa Valley Language Academy, Phillips Elementary, Shearer Elementary, Snow Elementary, West Park Elementary, Willow Elementary, Harvest Middle School, Redwood Middle School, Silverado Middle School, Napa High School, and Valley Oak High School.

NVUSD used the concentration grant add-on funding to add or increase the number of mental health clinicians (social workers/counselors) and intervention teachers who provide direct services to students at the school sites identified above. Additionally, NVUSD used concentration grant add-on funding to retain counselors so that direct services to students were uninterrupted.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

NVUSD’s plans, including the LCAP, ESSER III plan, ELO Grant plan and Educator Effectiveness Block Grant Plan were developed in alignment with NVUSD’s strategic plan. The needs identified and expenditures planned and made in the ESSER III Plan and the ELO plan came directly from input provided during the LCAP educational partner engagement sessions. In addition, NVUSD has engaged Educational Partners during the 2021-22 school year to provide input into the ESSR III and Educator Effectiveness Block Grant plans. Input sessions with educational partners were held during the Superintendent's Parent Advisory Council, Superintendent's Teacher Advisory Council and District English Learner Advisory Committee (DELAC).

Based on NVUSD's strategic plan and the needs identified by our educational partners, NVUSD's LCAP focuses on four goals:
Goal 1: Students will graduate college and career ready.
Goal 2: Students will experience responsive and engaging pedagogy.
Goal 3: Families will experience robust communication, community engagement and advocacy.
Goal 4: Students will thrive socially, emotionally and academically.

These four goals are reflected in the plans that detail how COVID-19 relief funding and the Federal Stimulus Funding was allocated.

For reference:
A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

NVUSD prioritizes the health and safety of students, educators, and other staff and remains committed to a continuity of services, as required by the American Rescue Plan (ARP) Action of 2021. To this end, NVUSD has effectively implemented multiple actions identified in our Elementary and Secondary School Emergency Relief (ESSER) III Expenditure Plan focused on strategies for continuous and safe in-person learning and addressing lost instructional time.

Specifically, we have successfully implemented the following actions:
* Assigned Intervention teachers, Teachers on Special Assignment, Library Multi-Media Specialists, and Paraprofessionals to every elementary site to support Tier 2 and Tier 3 intervention principally directed to support the academic growth of students in our unduplicated and at-promise populations.

* Provided tools to identify, track and support unfinished learning (learning loss), and ensure safe access to the internet, especially for our most at need students such as Unduplicated, EL, Foster or Homeless using the following tools: Star Renaissance Assessments, Ellevation (English Learner monitoring), and Tableau.

* Hired additional staff to support our continuing efforts to safely operate schools for in-person learning in a way that reduces or prevents the spread of the COVID-19 virus (Communications staff, Director of Risk Management Associated with COVID-19, Substitute Manager, Operational Manager, Accounting support, Health Services Assistants, additional campus security, additional hours for nurses).

* Contracted services to meet students’ academic, social, emotional, and mental health needs, address learning gaps, support our at promise students, address opportunity gaps and provide intervention, safety of students, and continued operation of the school district through improved translation services, increased contracts with community based organizations to provide mental health services and additional funding for family resource centers.

* Purchased materials such as Chromebook, iPads, carts, technology enhanced curriculum, assessments or other curriculum to meet students’ academic, social, emotional, mental health needs, address learning gaps, support our at-promise students, reduce opportunity gaps and safety related equipment such as Chromebooks, iPads, early literacy assessments and personal protective equipment for students and staff.
The most significant challenge in implementation has been hiring an adequate number of staff to fill student support positions.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.

NVUSD considers the LCAP to be the comprehensive planning document that captures the identified priorities, goals, and actions to improve student outcomes. As such, all additional funds received were allocated based on the needs identified in the LCAP along with the funding requirements. NVUSD's LCAP goals are:
Goal 1: Students will graduate college and career ready.
Goal 2: Students will experience responsive and engaging pedagogy.
Goal 3: Families will experience robust communication, community engagement and advocacy.
Goal 4: Students will thrive socially, emotionally and academically.

All of NVUSD’s plans, including the LCAP, ESSER III plan, ELO Grant plan, Educator Effectiveness Block Grant Plan, and the upcoming A-G plan align with NVUSD’s strategic plan. For example, the LCAP and the ELO plan both address the need to mitigate unfinished learning and accelerate learning through expanded learning opportunities for students. Ensuring that students are thriving socially, emotionally and academically required investment in our Multi-Tiered System of Support (MTSS) with dedicated MTSS site teams and a robust assessment system.

Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan outline essential expenditures needed to keep students healthy and safe during the COVID-19 pandemic requiring the purchase of personal protective equipment, hand sanitizer and cleaning supplies in significantly larger quantities than usual.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.
Introduction

California's 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

• The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
• All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
• Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

• The 2022–23 Budget Overview for Parents
• The 2021–22 Supplement
• The 2022–23 LCAP
• The Action Tables for the 2022–23 LCAP
• The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA’s educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: “A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”
In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: “A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: “A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.”

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: “A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.”

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the
continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

**Prompt 5:** “A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.”

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

- Transforming lives by instilling and inspiring lifelong learning in every student-

Established in 1965, Napa Valley Unified School District, which covers 259 square miles, serves the communities of Napa, American Canyon and Yountville in the heart of the Napa Valley. Over 16,500 students attend our 28 schools in grades TK-12. The students and families of the valley are diverse, hard-working and committed to ensuring that their schools are exceptional. NVUSD offers rigorous academic courses, robust Career Technical Education options and diverse extracurricular and athletic programs. Our students can learn in traditional neighborhood schools, magnet schools, independent study, dual immersion English-Spanish programs, online options and more. NVUSD also has a long-standing commitment to social-emotional support of students with Wellness Centers at each middle school and at American Canyon High School. In 2021-2022 all secondary schools had the additional resource of social workers to provide mental health support services for students and families.

NVUSD, governed by an elected seven-member Board of Education, employs over 1,600 dedicated faculty and staff members who work collaboratively to achieve district goals outlined in NVUSD's strategic plan. The vision of the Board of Trustees is "Transforming lives by
instilling and inspiring lifelong learning in every student.” In December 2018, the Board of Trustees adopted a new NVUSD Strategic Plan, outlining their vision for the students, families and employees of the district. The strategic plan outlines the following goals:

Goal 1: Student Learning, Achievement and Access
Goal 2: Effective Employee Relations and Resource Management
Goal 3: Robust Communication, Community Engagement and Advocacy
Goal 4: Tactical, Proactive and Efficient Asset Management
Goal 5: Equity Centered Leadership and Inclusive Organizational Culture
Goal 6: Strategic, Impactful Governance and Policy Implementation

The NVUSD 2022-2023 Local Control and Accountability Plan (LCAP) primarily focuses on Goals 1, 3 and 5 of this Strategic Plan, although Goals 2, 4 and 6 play an important role in the successful implementation of the LCAP.

Enrollment
Napa Valley Unified School District serves 16,524 students across 28 schools, 16 elementary schools, 5 middle schools, 4 high schools, a continuation high school, as well as independent study and adult education programs. NVUSD has experienced significant decline in student enrollment resulting in a reduction of over 1,600 students since the 2016-2017 school year. As a result, one middle school is closing at the end of the 2021-2022 school year leaving NVUSD with four middle schools for the 2022-2023 school year. The diversity of the valley is reflected in NVUSD's student population with Latino students comprising 57% of the district's enrollment; white students 26%; Filipino 7%; Asian 2%, Two or More Races 4.6%, African American 2.3% and American Indian less than 1%.

Attendance
Historically, attendance has been uniformly high, with the district consistently logging an actual attendance rate in excess of 95% at all grade levels, however, absences related to Covid-19 isolation and quarantine guidelines have severely reduced our average daily attendance percentage.

Socio-economically Disadvantaged Students (SED)
Approximately 57% of students are classified as socio-economically disadvantaged based on federal lunch program criteria.

Multi-lingual Learners (English Learners)
The 2021-2022 data report 3,962 students (24% of total enrollment) as English Learners (ELs) representing 30+ home languages with Spanish the predominate language spoken by over 95% of ELs.

Students with Disabilities (SWDs)
2169 students are identified as having special needs (13.1% of total enrollment) requiring special education services ranging from related services to more intensive.

Foster/Homeless Students
As of May, 2022, NVUSD has 64 students placed in foster homes and 247 students in temporary housing. NVUSD provides a full time social worker to meet the needs of our students who are experiencing the additional challenges of housing instability.

Family Engagement
NVUSD values parent and community engagement and provides multiple opportunities for parents and families to engage with their school sites and the district. The Superintendent’s Parent Advisory Council, District Advisory Committee (DAC), District English Learner Advisory Committee (DELAC), site based English Learner Advisory Committee (ELAC), Parent–Teacher Associations (PTAs) and Parent Clubs are some of the ways that parents and community members participate in District decision-making. As the District responds to declining enrollment and the consequent decline in revenue, along with increased costs, staff and community members will continue to engage in problem solving to adjust to these conditions while remaining proactive and committed to high quality programs and services for all of our students and families.

Reflections: Successes
A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

NVUSD was on track to fully implement the actions and services described in our prior LCAP however Covid-19 altered our plans. During the 2021-2022 school year, the Covid-19 pandemic continued to have an impact on our student’s academic and behaviorally success. Over the course of the year, we worked hard to mitigate that impact. Based on the California School Dashboard, our four-year cohort graduation rate increased slightly from the prior year

Four-year cohort graduation rate in 2020-2021 was:
91.5% - All students
77.4% - English Learners
N/A - Foster Youth was unavailable due to too few students in the subgroup.
78.1% - Homeless Students
88.9% - Socioeconomically Disadvantaged students/Free and reduced lunch eligible

For the 2021-2022 school year, we built on our successful implementation of a district wide assessment system by providing more training to teachers on how to utilize the assessment information to inform instruction. Additionally, the purchase and distribution of devices at the secondary level contributed to NVUSD being completely 1:1 in devices for all secondary students. Students now have access to web-based curriculum and supports at home. Given many obstacles created by the pandemic, one significant success to celebrate is that the majority of our students at each level continued to make typical to high growth over the course of the year. Assessing students three times a school year using the Star assessments provides information on student growth over time. Overall, our students evidenced progress even with the challenges presented by the pandemic. Over 65.4% of our students demonstrated high or typical growth on the STAR Literacy assessment given in the Spring of 2022. Over 62.7% demonstrated High or Typical Growth on Math on the STAR during a similar testing window.
Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Due to the COVID-19 pandemic, state assessments in English Language Arts (ELA), Math, and Science were not administered during 2019-20 or 2020-2021 school years. Our local data from the STAR Renaissance assessment system will be primarily used for this reflection. The most recent CAASPP (2019) showed an overall percentage of students meeting standards of 48% in English Language Arts and 35% in Math. During the 2021-2022 school year, NVUSD students were assessed three times using the STAR Renaissance assessment system. The most recent results from the winter assessment indicates the following data points:

Academic Performance
Elementary
ELA: 39% met or exceeded the standard
Math: 29% met or exceeded the standard
Middle
ELA: 42% met or exceeded the standard
Math: 26% met or exceeded the standard
High School
ELA: 46% met or exceeded the standard
Math: 39% met or exceeded the standard

When the Winter 2022 data is disaggregated the results show:
ELA/LITERACY at or above benchmark
45.1% = All Students
15.8% = English Learners
37.8% = Re-designated
20.1% = Students with IEPs
32.5% = Free & Reduced Lunch Eligible

MATH at or above benchmark
55.3% = All Students
26.5% = English Learners
53.1% = Re-designated
27.0% = Students with IEPs
42.5% = Free & Reduced Lunch Eligible
Graduation Rate
The most recent results available (from the 2019 Dashboard) show that the district needs to improve performance for all students and to address performance gaps. While there was some progress made from the 2018 to 2019 Dashboard, the size of the performance gaps remains for multiple student groups.

All Students: 91.5%
African-American: 88%
Asian: 97.5%
Filipino: 97.4%
Hispanic: 89.9%
White: 92.5%
SED: 88.5%
EL: 79.6%
SWD: 74.1%
Foster Youth: 75%
Homeless: 83.6%

A-G Completion Rate: Dataquest
692 out of 1519 students met A-G requirements = 45.5%
13 ELs out of 121 met A-G requirements = 10.7%
299 Socioeconomically disadvantaged students out of 585 (FRL out of Aeries) - 51.1%
There were no 12th graders who were foster youth in 2020-2021.
23 out of 32 homeless students met A-G requirements = 71.8%

The College and Career Readiness rates from the California Department of Education (CDE) Dashboard 2019 show a preparedness gap between several subgroups suggesting that the District must continue to focus our effort to address these gaps.

College and Career Readiness Indicators
Total % Prepared: 45.5%
African American: 35.6%
Asian: 60%
Filipino: 62.9%
Hispanic: 36.7%
White: 54%
SED: 35.7%
EL: 10.7%
SWD: 11%
Foster Youth: 25%
Homeless Youth: 29.5%

A review of our attendance data indicates a need to address chronic absenteeism at several schools. To address chronic absenteeism, NVUSD utilizes wrap-around services provided by a variety of staff including: teachers, site administrators, parent liaisons, counselors, social workers, and nurses to address student needs. NVUSD is also partnered with Attendance Works to improve our response to attendance and chronic absenteeism.

Using local assessments and other available data, NVUSD, identified the following needs:
Address the graduation and College and Career Readiness Indicator performance gap
Address the overall low academic performance in Math and ELA specifically among our unduplicated student population

LCAP Highlights
A brief overview of the LCAP, including any key features that should be emphasized.

NVUSD's 2022-23 LCAP supports our long-term efforts to provide a high quality, engaging educational experience to all students while directly addressing the unique needs of our unduplicated students. Our three-year plan has four specific goals with related focus areas:

Students will graduate college and career ready.
* Implement a comprehensive literacy initiative that ensures that all students TK-12 read, write and communicate proficiently.
* Support the consistent, effective implementation of state standards in math to ensure that all students can fluently and accurately calculate mathematical problems, apply mathematical reasoning and explain their thinking.
* Assess student learning through a robust, balanced assessment system to inform teaching and respond to students’ needs.
* Support students in completing at least one college and career readiness indicator, including completing the full CTE Pathway.

Students will experience responsive and engaging pedagogy.
* Ensure all learners experience research based, high impact instructional strategies that engage and support student learning.
* English Learners are provided integrated and designated ELD throughout the day.

Families will experience robust communication and engagement.
* Provide pro-active two-way, Inclusive, and user-friendly stakeholder engagement; Systematize family engagement and advocacy efforts at the District and site level
* Provide outstanding, consistent translation services.

Students will thrive socially, emotionally and academically.
* Provide prevention and intervention programs that focus on health, wellness and positive personal and social development.
* Ensure the effective, consistent implementation of Multi-Tiered Systems of Support for academic, social emotional and behavioral
intervention in order to provide differentiated support for all.
*Implement diversity, equity and inclusion plan
*Ensure a safe, clean and secure campus for students

NVUSD’s LCAP goals align to the LCFF State Priorities as indicated below:
- State Priority 1 (Basic Conditions): LCAP Goal 2 and 4
- State Priority 2 (Common Core State Standards Implementation): LCAP Goals 1, 2
- State Priority 3 (Parent Engagement): LCAP Goals 3
- State Priority 4 (Pupil Achievement): LCAP Goals 1, 2, 3 and 4
- State Priority 5 (Pupil Engagement): LCAP Goal 2 and 4
- State Priority 6 (School Climate): LCAP Goals 2 and 4
- State Priority 7 (Course Access): LCAP Goals 2, 4
- State Priority 8 (Pupil Outcomes): LCAP Goals 1, 2 and 4

NVUSD has a long commitment to project and inquiry-based learning where innovation and technology enhance teaching and learning. While remaining committed to inquiry-based learning, we also recognize the need to ensure "best, first Instruction." We are dedicating additional resources to professional development and materials to strengthen standards aligned instruction and research-based, tiered interventions for students who need them. The 2022-2023 LCAP strives to address the needs of students who have had disrupted learning due to the challenges caused by Covid-19 isolation and quarantine guidelines and the lingering impact of hybrid learning.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

**Schools Identified**

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Snow Elementary School - Student academic performance
- Valley Oak High School - Graduation rate

**Support for Identified Schools**

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

The Napa Valley Unified School District supports its schools using a layered approach, with district office personnel teaming up to ensure site administrators have the thought-partners they need to develop thriving schools. Using cycles of continuous improvement, schools must align their site goals with the board-adopted Strategic Plan to ensure cohesion and equity across the system. Both Snow Elementary School and Valley Oak High School were assisted in the development of their Comprehensive Support and Improvement (CSI) plans by Napa Valley
Unified School District (NVUSD) Instructional Support Services (ISS) staff as well as Napa County Office of Education staff. Both sites conducted comprehensive needs assessments in the spring of 2022, including indicators related to attendance, engagement, grades, and universal screener data with their stakeholder teams, including leadership, site council, and English Learner Advisory Council (ELAC), and worked with district staff to align their goals with the NVUSD Strategic Plan. Working with ISS staff to review budgets, each site identified resource inequities in professional development and evidence-based instructional practices that could be addressed through implementation of the CSI plan. Each site then selected evidence-based strategies based on the needs assessment and stakeholder input, including hiring interventionists, parent liaisons, increasing teacher collaboration time and selecting consultants to work with staff. These strategies were selected to address specific needs within each school site:

- **Snow Elementary** has a high English Learner population as well as a high socio-economically disadvantaged population and their data indicate a majority of their students need intensive interventions and supports in order to meet grade level proficiency in math and reading. Hiring an additional full-time intervention teacher using the CSI funding enables Snow Elementary to double the direct services to students. The intervention teacher will be part of the larger NVUSD Intervention team and will serve small groups of students in both a push-in and pull-out model focused on bolstering students' literacy and numeracy skills. In addition to the Intervention teacher, Snow is utilizing Corwin consulting to work with staff on the Teacher Clarity Playbook and Distance Learning Playbook, research-based approaches to improving student achievement.

- **Valley Oak High School (VOHS)** is an alternative educational option for 16- to 18-year-old students who need an alternative setting and/or an alternative pathway to complete their graduation requirements. VOHS teachers and administrators are committed to helping students achieve academic and social/emotional growth through the three R’s - Relationships, Relevance and Rigor – in a safe and welcoming culture that emphasizes Compassion, Respect, Safety and Responsibility. Because it is a small, alternative school, Valley Oak High School often experiences inequities in funding compared to the other comprehensive high schools in the system. An example is the parent liaison model. Valley Oak High School was allotted a partial liaison based on their size, and are using the CSI funding to expand on the allotment, increasing it to a full-time position. Given the needs assessment and stakeholder input regarding an increased need for family outreach regarding attendance, and wellness, this strategy was selected to specifically support those needs. In addition to the liaison, Valley Oak High School used stakeholder input to move forward with a new social-emotional learning program centered around building character and confidence in teenagers. The site will use CSI funding for the program, professional development and follow-up coaching.

- Both sites also found a need for increased professional learning time, which includes funding for substitutes, registration costs, and extra work requests outside of contract time through their needs assessments. Due to budget constraints at the district level, supplemental funding and other resources that have traditionally supported professional learning have been reduced, redistributed or cut entirely. The CSI funding enables both sites to include research-based professional learning specific to their site needs.
**Monitoring and Evaluating Effectiveness**

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Napa Valley Unified School District (NVUSD) will work with each site to monitor and evaluate the effectiveness of the selected evidence-based strategies to improve student outcomes. NVUSD Instructional Support Services staff, including the Assistant Superintendent of Instructional Services, Director of Curriculum, Instruction and English Learner Services for Secondary, Director of Curriculum, Instruction and English Learner Services for Elementary, Director of Prevention and Intervention, Director of Student Services, will be providing ongoing support to both sites throughout their implementation of the CSI plan. In addition, both sites will be supported by the Business Services department with ongoing fiscal reports as well as assistance from the Department of Assessment and Data Services team. NVUSD has a comprehensive assessment system, including universal screening, summative and formative measures, from which data will be reviewed and analyzed with each site on a quarterly basis. In addition, district Teachers on Special Assignment will provide on-going coaching and professional learning support to sites.

The types of data and information NVUSD is collecting and analyzing to inform ongoing decision making include attendance and engagement data from Student Welfare and Attendance (SWA), the Star Assessment Suite from Renaissance, the English Language Proficiency Assessments for California (ELPAC), a universal wellness screener (Strength and Difficulties Questionnaire), curriculum-embedded measures, and parent surveys.
Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Our process for educational partner sessions was intended to be as inclusive as possible. A series of input sessions were held between January 2022 and March 2022 with community groups (Napa Valley Education Foundation, Board Advisory Committee and Parent Organizations, Superintendent’s Parent Advisory, DELAC, Title I DAC) to gather input on the development of the District’s LCAP. In addition, an electronic survey was distributed to parents, students and staff for additional input. At all meetings with Spanish speaking parents or community members, interpretation was provided or information was presented in Spanish (e.g., Spanish PowerPoint). Groups were presented with information about the funding process, current action steps written into the 2021-2024 three-year plan, method of progress monitoring (California Dashboard) and funding for the 2021-2022 school year. Participants provided input based on current needs or priorities. Groups discussed district data (as available from CDE and including the Dashboard) and the actions/services provided to students and families. Ideas were synthesized to address the needs of (a) all students; and, (b) Unduplicated Pupils (English Learners, Foster Youth, Special Education, low socio-economic status) and students with IEPs, to meet 8 state priorities and our six district goals. These engagement opportunities contributed to the development of NVUSD’s 2021-2024 LCAP.

Educational partner groups and LCAP involvement dates included:

Community Groups:
Board Advisory - Curriculum & Student Support Committee - 1/19/2022
Napa Valley Education Foundation - 2/15/2022
Napa County Mental Health (County of Napa) - 2/4/2022
Arts Council Napa Valley - 2/4/2022

Bargaining Units:
Napa Valley Educators’ Association (NVEA) - 2/28/2022
California School Employees Association (CSEA) - 2/3/2022
Napa Association of Pupil Services (NAPS) - 1/26/2022

Parent Groups:
District English Learner Advisory Committee (DELAC) - Introduction: 1/26/2022; Follow-up: 3/30/2022; Final Review: 6/1/2022
District Title 1 Advisory Committee (DAC) - Introduction: 2/1/2022; Follow-up: 3/24/2022; Final Review: 6/2/2022
Superintendent’s Parent Advisory Committee - 2/7/2022
SELPA - Community Action Council - 3/21/2022

Surveys (English and Spanish):
Parent Input - 185 responses
Student Focus Group - 17 participants
Staff Input - 25 responses

Staff Groups:
School Site Principals - 2/2/2022
School Site Assistant Principals - 2/3/2022
District Academic Specialists - 2/15/2022
Superintendent's Teacher Advisory Committee - 2/17/2022
Interventionist Team - 2/9/2022, 3/2/2022
District Administrators (Full Cabinet) - 2/28/2022
Counseling/Social Worker Team - 3/2/2022
MTSS (Multi-Tiered System of Support) Leads - 3/15/2022

Notification of the Public Hearing was posted on the NVUSD webpage. The Board of Education held a Public Hearing to review the Local Control Accountability Plan (LCAP) on June 9, 2022. The presentation of the plan for approval is scheduled for the Board of Education meeting on June 23, 2022.

A summary of the feedback provided by specific educational partners.

The Educational Partner section highlights the major recommendations that emerged across various groups. The impact of educational partner engagement on the 2022-2023 LCAP has been substantial, with input playing a major role in clarifying goals and identifying key performance metrics. Overall, the feedback provided by stakeholder groups reaffirmed and built upon many of the key priorities stated in our strategic plan.

The overarching themes that emerged in the educational partner engagement process included the critical need to:

- Continue to improve access to information and assistance to parents
- Begin College and Career Readiness preparation before high school
- Increase mental health supports at all levels
- Continue to effectively implement our Multi-Tiered System of Supports (MTSS) while concurrently working to improve Tier 1 instruction.
- Increase before, during and after school academic and enrichment opportunities and support
- Increase services to Newcomer English Learner students
- Increase learning opportunities for advanced learners
- Ensure inclusion of students with special needs as appropriate

The following details are the themes that emerged across various stakeholder groups.

Access
Parent groups shared that many families have difficulty accessing electronic communication done through ParentSquare (our main...
communication tool). As a result, this impacted parents’ ability to stay informed and engaged with the school. This feedback came specifically from our DELAC members.

College and Career Readiness
The importance of adequately preparing all students for life beyond high school was indicated throughout the various stakeholder groups. Family and community stakeholders particularly discussed the need for additional academic support within the classroom as well as after school. The importance of preventing the need for academic intervention at higher grade levels by developing a strong foundation in the early grades was also discussed.

Increased Mental Health Supports
The ongoing need for increased mental health support and services as a result of the lingering impact on students' mental health and wellbeing was consistently shared across multiple stakeholder groups. Stakeholders have emphasized the need for more awareness, regular check-ins, monitoring of student needs, and provision of tiered supports to address mental health. Specific feedback examples include the call for more social workers, mental health counseling at school sites, and the development of courses/curricula to provide students direct access to education about their own mental health. Stakeholders have reiterated the importance of addressing mental health (including the effects of trauma) so that students can fully access any academic support to be provided and fully engage in the process of learning.

Effective Implementation of a Multi-tiered System of Supports (MTSS)
A leading theme that echoed across educational partners' input was the importance of implementing and sustaining an effective Multi-Tiered System of Supports (MTSS) districtwide and at each school site. This input area strongly informs many, if not most, of the other overarching themes and key recommendations. Key aspects of MTSS include a coherent and consistent Tier 1 (foundational) program, providing responsive services to students based on identified need (including individualized supports and reading supports), implementing systems that improve the culture and climate of schools and classrooms, equitable allocation of resources using data-based decision making, and monitoring the effectiveness of actions to determine what is working and what needs to be changed.

Expanded Learning Opportunities
Due to the disrupted learning caused by the pandemic, providing extended learning time for students is critical. During our educational partner sessions, parents stressed the need for students to "make up" for the lost learning time. Parents stated a need to not only address the "learning loss" but also the need to increase learning experiences for Newcomer students (especially at the secondary level) and advanced learners.

Inclusive Schools
Our families that have students with special needs shared the need to ensure opportunities for inclusion.
A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The LCAP incorporates the input expressed by students, parents, teachers, administrators, staff, and community members. The following summarizes actions or priorities that were influenced by specific educational partner input, categorized by NVUSD’s LCAP Goals

Students will graduate college and career ready.
Stakeholders indicated a desire to improve the support for students so they are able to graduate fully prepared for life after high school. They expressed the importance of college AND career readiness as a key to postsecondary success. NVUSD’s LCAP provides students with more support to understand and, as desired, pursue Career and Technical Education (CTE) and dual enrollment as part of their studies and technical program/trades as postsecondary options. Additionally, a focus on literacy and high quality first instruction is reflected in the actions identified in Goal #1.

Students will experience responsive and engaging pedagogy.
English Learners need targeted and strategic support to accelerate their language acquisition. Learning experiences need to be highly engaging with a focus on responding to the unique needs of our unduplicated students. The focus of the professional learning detailed in our plan is a direct result of student focus groups.

Families will experience robust communication and engagement.
During the pandemic the need to stay connected with NVUSD families was amplified. Families expressed some frustration that we rely heavily on ParentSquare as the main tool for communication with families. The need to expand the methods used is a key component in our LCAP plan for 2022-2023. Our plan builds on the success of our bilingual parent liaisons as a way to continue engaging and supporting families.

Students will thrive socially, emotionally and academically.
Goal 4 was specifically created to address the need families shared regarding the importance of supporting students emotionally as well as academically. Families stated repeatedly the value of providing Social Emotional Learning (SEL) and mental health services for students during the school day. The identified actions in the plan that support providing a well-rounded learning experience through Visual and Performing Arts (VAPA), athletics, extra-curricular and enrichment activities is a direct result of input provided by various stakeholders.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Students will graduate college and/or career ready</td>
</tr>
</tbody>
</table>

This LCAP goal aims to:
- Establish college and career readiness for every student through high quality instruction of core, standards-aligned content.
- Increase the number of high school internship programs that address the core components of Work-Based Learning.
- Accelerate growth for Students with Disabilities, English Learners, African American students, American Indian or Alaska Native students, Native Hawaiian or Pacific Islander students, Foster Youth, Homeless Youth, and other student groups with gaps in outcomes until gaps are eliminated.

An explanation of why the LEA has developed this goal.

Feedback from educational partners and data analysis indicated a need to maintain this goal.

This LCAP section reflects Goal #1 of NVUSD's Strategic Plan and was developed to ensure that all students are provided the access, opportunity and support to graduate with an array of postsecondary options. For all students to access and succeed in postsecondary opportunities, they must demonstrate sufficient academic progress during the course of their academic journey. Inequities continue to be exacerbated during the pandemic, as a result NVUSD must focus on learning acceleration, particularly for unduplicated pupils. Our A-G graduation requirement data and graduation rate serve as a key data point for this goal.

Please note:
The following section (Actions) includes a column titled 'Contributing' for which each action is categorized as ‘Y’ or ‘N.’ A ‘Y’ in this column indicates that the action is contributing to meeting the increased or improved services requirement as described in the Increased or Improved Services section later in this LCAP. These actions are those that are funded in part or fully by LCFF Supplemental Concentration grant funds and intended to increase or improve services for unduplicated students (English Learners, Foster Youth, Homeless Youth, and Socioeconomically Disadvantaged students).

| 1.2     | Mathematics Program Support   | The following actions and services focus on the consistent, effective implementation of state standards in math to ensure that all students can fluently and accurately calculate mathematical problems, apply mathematical reasoning and explain their thinking at grade level:  
  Retain highly qualified staff to maintain class size and meet grade span adjustment ratio to better serve English Learners, Foster Youth and students from low income families through competitive compensation.  
  Utilize an equity-based staffing formula at the secondary level to increase FTE based on unduplicated student count at each school site.  
  Provide research-based, targeted, and tiered academic interventions to accelerate student learning, particularly for unduplicated pupils.  
  Provide math interventions, tutoring and enrichments to extend learning opportunities for students to augment the core academic program.  
  Utilize universal screening for math to monitor student progress and assess the need for early intervention.  
  Provide curriculum and instructional materials to implement intervention programs.  
  Provide professional development for and coordination of staff who deliver interventions programs.  
  Contract professional learning services with the Math Learning Center to support the continued implementation of the Bridges math curriculum at the elementary level | $2,905,207.00   | Yes           |

| 1.4     | Work Based Learning Experiences | The following actions and services focus on ensuring that students will have the opportunity to benefit from real world experiences to be prepared for life after high school and fulfill an indicator for College/Career Readiness:  
  - Provide the necessary training to counselors to support students in completing at least one college and career readiness indicator  
  - Allocate resources for work-based learning activities  
  - Provide funding for a work-based learning coordinator  
  - Expand internship programs to all high schools  
  - Offer Career Technical Education (CTE) at all high schools in partnership with Napa County Office of Education.  
  - Host career days at all middle schools for students to have the opportunity to learn about multiple careers.  
  - Continue to offer Naviance for all 9th-12th graders to understand self, explore careers and apply to college. | $85,500.00 | Yes          |
Goal Analysis [2021-22]
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

The ongoing challenges due to the COVID-19 pandemic impacted the full implementation of some LCAP actions, however, we were able to maintain or initiate the implementation of programs, services, and resources outlined under this goal for our students. Some of the challenges to full implementation were related to student and teacher absences due to Covid-19 isolation and quarantine guidelines. Additionally, the limited availability of substitute teacher to allow for release time for professional learning severely impacted the implementation of our actions related to instructional practices. More specifically, we were only able to offer professional learning after school which was voluntary for staff to attend. As a result, NVUSD leveraged the two districtwide professional learning days to train teachers on instructional best practices to the extent possible.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

NVUSD did not have significant differences between budgeted expenditures and estimated actual expenditures. Budgeted expenditures in this goal totaled $6,934,093.00 and estimated actual expenditures is $6,238,365.43. Some decreases were a result of expenditures being assigned to one time grant money received by the State and Federal government. Additionally, some positions either were not filled or did not start at the beginning of the school year. Finally, the other differences between budgeted expenditures and estimated actuals had to do with increase costs of materials or lower participation in professional learning opportunities.

An explanation of how effective the specific actions were in making progress toward the goal.

NVUSD typically uses a variety of data when making decisions about education programs and policies, however due to the COVID pandemic, there has been a disruption in many data points. The California Department of Education (CDE) has recommended that direct comparisons between 2020-21 metrics and prior years is done cautiously and that the context of the COVID-19 pandemic be taken into consideration when determining the effectiveness of LCAP actions on impacting LCAP metrics. Additionally, many intervention TOSAs were pulled to serve as classroom teachers due to the limited number of substitute teachers and the high number of teacher absences due to Covid-19 isolation and quarantine requirements which makes it challenging to fully assess the effectiveness of their efforts.

NVUSD reviewed both quantitative and qualitative data as evidence that key actions and services were making a difference in this goal.

Key successful actions in this goal were:
- Intervention teachers at the elementary level provided literacy support to emergent readers.
- Provided two days of professional learning for instructional staff on MTSS, SEL, Standards-based instruction and student engagement
- Identified priority standards for high school math courses in order to ensure alignment across campuses
- All secondary math staff were trained during NVUSD PD Days on the use of priority standards and proficiency scales.
- Relaunch of College Summer Readiness Math Academy at ACHS, NHS, NTHS, and VHS to support students in Math 1 with pre-requisite skills and connection to high school as well as college readiness support.
All elementary intervention teachers have been trained in using Bridges Intervention materials and are using these materials to support math intervention.

Clearly articulated math acceleration pathway at the secondary level
Completed professional learning focused on math instruction for elementary and secondary teachers
All elementary site leaders receive simultaneous training on how to lead the work to improve mathematical instructional practices so that teachers and leaders are aligned as we implement the structures and instructional approaches.
Teachers and site leaders receive onsite coaching and support from the NVUSD District Math TOSA.
A common math observation and feedback protocol has been developed this year and is being used by all elementary principals to support instructional improvements at the elementary level.

As a result of these actions our students’ performance levels on the STAR assessment maintained or improved in most grade levels over the course of the year even with significant ongoing staff and student absences. In literacy, as a result of our focus on providing early literacy materials and intervention, the STAR Early Literacy data shows significant gains at the primary level. The number of students at or above the benchmark went from 37.8% to 61.3% on the Early Literacy assessment from Fall to Spring. Based on the STAR Reading and Math assessment national norms, all of our student subgroups showed growth from the beginning of the school year to the end.

**STAR READING**
- All Students (Fall, Spring) 40.5%, 44.6%
- English Learners (Fall, Spring) 9.9%, 15.3%
- Re-designated (Fall, Spring) 34.7%, 35.2%
- Students with IEPs (Fall, Spring) 16.0%, 20.3%
- Free & Reduced Lunch (Fall, Spring) 27.6%, 32.2%

**STAR MATH**
- All Students (Fall, Spring) 50.1%, 55.1%
- English Learners (Fall, Spring) 18.9%, 27.7%
- Re-designated (Fall, Spring) 48.0%, 52.2%
- Students with IEPs (Fall, Spring) 21.7%, 25.6%
- Free & Reduced Lunch (Fall, Spring)
36.6%, 42.7%

Overall, our students made academic progress during an incredibly challenging year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

All major actions and services are being continued into 2022-23 school year due to continued need and preliminary positive results.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

<td>2</td>
<td>Students will experience responsive, engaging pedagogy. This goal is focused on ensuring all learners experience research based, high impact instructional strategies that engage and support student learning by providing ongoing professional learning.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Feedback from educational partners and data analysis indicated a need to maintain this goal and increase services for Newcomer English Learners.

The professional development of teachers, administrators and other certificated and classified staff is central to NVUSD’s core mission. We are committed to recruiting, retaining and training the highest quality staff. We believe the best way to ensure continuous improvement and improved outcomes for students is to invest in our staff.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The ongoing challenges due to the COVID-19 pandemic impacted the full implementation of some LCAP actions, however, we were able to maintain or initiate the implementation of programs, services, and resources outlined under this goal for our students. Some of the challenges to full implementation were related to student and teacher absences due to Covid-19 isolation and quarantine guidelines. Additionally, the limited availability of substitute teacher to allow for release time for professional learning severely impacted the implementation of some of our actions’ items. NVUSD leveraged the two districtwide professional learning days to train teachers on instructional best practices. Furthermore, due the lack of substitutes, many of our Teachers On Special Assignment (TOSA) who were slated to provide intervention services, were called to serve as classroom teachers on a regular basis.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

NVUSD did not have significant differences between budgeted expenditures and estimated actual expenditures. Budgeted expenditures in this goal totaled $2,363,579.00 and actual estimated expenditures is $1,669,636.18. Some decreases were a result of expenditures being assigned to one time grant money received from the State and Federal government. Additionally, some positions either were not filled or did not start at the beginning of the school year. Finally, the other differences between budgeted expenditures and estimated actuals had to do with increase costs of materials or lower participation in professional learning opportunities.

An explanation of how effective the specific actions were in making progress toward the goal.

NVUSD was able to provide two District Wide Professional learning days for all TK-12 teachers and paraprofessionals to focus on supporting the needs of our unduplicated students and other at-promise youth through practices such as UDL, social-emotional learning, cultural responsiveness, equity practices, building relationships with students, project-based learning, technology, etc. Additionally, an English Learner Leadership team worked over the course of this year with West Ed to create a new English Learner Master Plan. During the 2021-22 school year, the Instructional Division has led the efforts to revise the district’s English Learner Master Plan with support from WestEd. This critical effort has been identified by educational partners as a priority to ensure appropriate services for English Learners at all schools. Working in collaboration with the District English Language Advisory Committee (DELAC), the new English Learner Master Plan outlines the district’s plan and process for ensuring that English Learners succeed academically. Approval of the new English Learner Master Plan is
anticipated for early Fall 2022. A key data point that reflects our growth in this area is the English Learner reclassification rate. NVUSD's reclassification rate went from 7.7% to 9.8% between the 20-21 and 21-22 school year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

All major actions and services are being continued into 2022-23 school year due to continued need and preliminary positive results. An additional action (2.3) focused on support for newcomers was added as a direct result of feedback received from our District English Learner Advisory Committee representatives.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Families will experience robust communication, community engagement and advocacy. This goal is focused on providing pro-active two-way, Inclusive, and user-friendly stakeholder engagement.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

The families of low-income students, English Learners, and foster youth often experience difficulty in accessing information and assistance, particularly when it comes to language. Parent participation in school decision-making processes and programs is critical to support student achievement, especially among the families of unduplicated pupils. During our most recent parent survey, only 75.2% of families who responded felt welcome at the child's school. Moreover, only 76% of parents reported knowing what teachers expect of their child. This goal addresses the need to create more welcoming school campuses and clarity for parents regarding teacher expectations of students. Additionally, 34% of English Learner parents feel that language remains a barrier to their participation in school.

Goal Analysis [2021-22]
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

The ongoing challenges due to the COVID-19 pandemic impacted the full implementation of some LCAP actions, however, we were able to maintain or initiate the implementation of programs, services, and resources outlined under this goal for our students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

NVUSD did not have significant differences between budgeted expenditures and estimated actual expenditures. Budgeted expenditures in this goal totaled $1,130,816.00 and actual estimated expenditures is $1,265,831.62. Some decreases were a result of expenditures being assigned to one time grant money received from the State and Federal government. Additionally, some positions either were not filled or did not start at the beginning of the school year. Finally, the other differences between budgeted expenditures and specific estimated actuals had to do with increase costs of materials and salaries or lower participation in professional learning opportunities.

An explanation of how effective the specific actions were in making progress toward the goal.
Our parent liaisons serve as a key element in our engagement with families. Since the beginning of the year, our parent liaisons had over 6800 documented interactions with families to provide support and information. The interactions focused on identifying resources to support student attendance, academic progress or parent needs. These personal interactions have had a positive impact on our families’ relationship with the district as evidenced by increased participation at school sites and our vibrant DELAC participation. Our ongoing effort to expand parent liaison support at our high need schools in detailed in our increase or improved services section. Our parent survey data reflected that our actions to provide communication in a language our families understand have not had the desired results. In response we have included an action item focused on the need to diversify the ways we provide information to our families. This year we initiated the first NVUSD Student Advisory Council which had representation from each high school. Students were provided a forum to share their experiences of learning during the pandemic and the return to fully in person school. NVUSD Student Advisory Council
members advocated for more opportunities for students to connect with each other during the school day. Their advocacy resulted in the creation of an action item focused on providing funds for that specific purpose.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

All major actions and services are being continued into 2022-23 school year due to continued need and preliminary positive results.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Students will thrive socially, emotionally and academically. This goal is focused on: Providing a safe, welcoming and respectful learning environment for every member of the school community. Cultivating an atmosphere where every student feels physically safe, emotionally supported, and academically challenged. Promoting positive and respectful relationships with students, parents, employees, and other members of the school community. Providing opportunities for employees to develop meaningful relationships that positively impact their ability to serve students and grow. Ensure the effective, consistent implementation of Multi-Tiered Systems of Support for academic, social emotional and behavioral intervention in order to provide differentiated support for all.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

The need to respond to the effects of school closure and hybrid learning due to COVID-19 requires expanding services to support students’ social, emotional and academic needs. As students return to full time in person learning, NVUSD must create a student-centered and inclusive school experience that guarantees academic achievement and a sense of belonging for all. The culture and climate of schools must be conducive to learning, embrace diversity as an asset, and encourage social-emotional development. Additionally, as systems and supports are improved, in particular the implementation of an effective Multi-Tiered System of Supports (MTSS), it is expected that graduation rate and college and career readiness indicators will increase at higher rates due to the benefit of students entering high school having received more effective support and preparation in the elementary and middle grades. Furthermore, NVUSD's diversity, equity and inclusion plan will provide district staff with the necessary tools to employ culturally appropriate and sustaining practices with students and families.

Progress will be measured with the Fidelity Integrity Assessment (FIA) tool used by school sites to determine site needs as they developed their School Plan for Student Achievement (SPSA).

| 4.1      | Student Wellness and Support Programs      | The following actions and services focus on providing prevention and intervention programs that support student health, wellness and positive personal and social development so that students can fully access learning:  

Provide SEL training to promote understanding, examine biases, build cross-cultural relationships, and cultivate adult and student practices that close opportunity gaps and create more inclusive school communities. Teachers and administrators will develop a working knowledge of SEL practices and develop a continuum of integrated levels of support through our MTSS and Student Success Team process.  

Maintain Wellness Centers and staffing (counselors, social workers, nurses, support staff) on middle school campuses.  

Enhance mental health support at elementary schools through increased counselors and/or community mental health organizations.  

Provide individualized support to students with disabilities (Instructional Assistants).  

Address the unique needs of American Indian and Alaska Native students through the American Indian Education Program.  

Provide direct Health Services through certificated school nurses and licensed vocational nurses. | $4,578,854.00 | Yes           |

| 4.2  | Multi-tiered System of Support | The following actions and services focus on ensuring the effective, consistent implementation of Multi-Tiered Systems of Support for academic, social emotional and behavioral intervention in order to provide differentiated support for all students:  
  
  Provide all school sites three year of training, coaching, and ongoing support to implement an effective Multi-Tiered System of Supports (MTSS).  
  
  Continued implementation of Positive Behavioral Intervention and Supports (PBIS) to promote a positive school and classroom culture.  
  
  Integrate Social Emotional Learning (SEL) into school and classroom instruction and practices.  
  
  Allocate funding for a Student Wellness and Support Coordinator to oversee mental health services and to ensure the full implementation of MTSS. This position will coordinate services for students in collaboration with school staff and work closely with counselors, social workers, other support staff and community partners across the district.  
  
  Allocate funding for a Homeless/Foster Youth Coordinator to ensure that foster and homeless youth have full access to the same academic resources, services, and extracurricular activities that are available to all students. The H/FY Coordinator will provide social-emotional learning interventions, academic/attendance tracking, intensive case management, and referrals for H/F students.  
  
  Allocate funding for school counselors (FTE) at all school sites.  
  
  Allocate funding for social worker (FTE) positions at all secondary sites and priority for elementary sites with highest need based on universal screener. | $2,037,369.00 | Yes |

  Improve and maintain school facilities to support increased student and staff safety.  
  Provide effective supervision of students.  
  Fund additional Assistant Principal, Counselor, Campus Safety, and other positions | $250,000.00 | Yes |

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The ongoing challenges due to the COVID-19 pandemic impacted the full implementation of some LCAP actions, however, we were able to maintain or initiate the implementation of programs, services, and resources outlined under this goal for our students. The actions under this goal focused on social and emotional well-being of students were a primary need in students’ return to in person learning. After over a year of hybrid learning, students returned with a myriad of mental health needs. We increased counselor and social worker staffing in response to the increased need.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

NVUSD did have significant differences between budgeted expenditures and estimated actual expenditures for Goal #4. Budgeted expenditures in this goal totaled $5,963,946.00 and actual estimated expenditures is $7,348,128.77. There were increased costs as a result of the impact on the mental, physical and behavioral needs of students. NVUSD expended additional funds to provide increased health service assistants, campus supervisors and extra hours for Covid related tasks.

An explanation of how effective the specific actions were in making progress toward the goal.

Throughout the 2021-22 school year, the instructional services division has provided ongoing training to staff regarding the MTSS process to ensure that multiple interventions are attempted before students are referred to special education. The MTSS Advisory Team and Secondary
Interventions Task Force collaboratively drafted an MTSS Handbook. The MTSS handbook is a living document that is updated as new elements of MTSS implementation develop and includes MTSS Intervention Maps for both academic and social-emotional/behavioral concerns. Additionally, Aeries was configured so that teachers could track tier 1 classroom-based supports and refer students for tier 2 and tier 3 interventions. An Aeries Analytics dashboard was built to provide MTSS teams a tool to identify students early for intervention. In addition to the MTSS process, NVUSD Student Wellness Centers provided critical and crucial services for students. The number of students with suicidal ideation increased and our site based mental health clinicians were able to respond to this increased need. NVUSD uses the Fidelity Integrity Assessment (FIA) to measure a school sites' implementation of MTSS best practices. The FIA assess in the following categories: Academic Support, Behavior/Social Emotional Support, Academic Instruction, Behavior/Social Emotional Instruction and Data-based Decision Making. At the elementary level, the average FIA score rose from 62% to 78%. At the secondary level, the average score increased from 55% to 60%. The FIA implementation score increase indicates growth in the use of the MTSS best practices.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

All major actions and services are being continued into 2022-23 school year due to continued need and preliminary positive results. An additional action was added to 4.3 (Diversity, Equity and Inclusion) to support the inclusion of students with special needs in General Education settings.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

**English Learners**

English Learner services are specifically designed to address the unique needs of students who face language barriers. The Literacy support and mathematics support, detailed in LCAP goal #1, address the needs of English Learners in several ways. Starting with classroom teachers, bilingual aides, and other staff members provide individual or small-group interventions that help students overcome language barriers. Highly trained teachers who are skilled in research-based instructional practices and programs can help reteach ELA and math content in different ways, accounting for the experiences of English Learners. Teachers benefit from professional development, coaching, technical assistance, and curricular resources that focus on English Language Development (ELD). Professional learning addressing ELs’ acquisition of English language proficiency and mastery of grade-level content standards, will be available to all teachers and administrators. The use of culturally responsive teaching practices is a key priority, especially in building cross-cultural relationships that create more inclusive and engaging school communities. Culturally responsive teaching practices are integrated into core and elective content and instruction to provide engaging learning opportunities for English learners. Additionally, tutoring and other interventions outside the regular day -- i.e., before school, after school, on weekends, or during intersession -- are designed to prioritize the highest-need students. They also often utilize materials that are particularly effective in engaging and supporting English Learners. Literacy support and mathematics support employ instructional strategies and approaches that are tailored to the needs of English Learners. They are also structured and scheduled in ways that extend learning opportunities beyond the school day, which responds directly to educational partner feedback. These interventions

---

2022-23 Local Control Accountability Plan for Napa Valley Unified School District

Page 60 of 96
were among the top priorities for educational partners. The targeted support also includes parent workshops, family communications, and other outreach efforts in other languages, most notably Spanish. Parent engagement and outreach efforts also includes home visits and other methods that go beyond traditional mass communications, which tend to be insufficient for families of English Learners. The additional parent engagement and outreach efforts principally benefit EL families, who require extra support to overcome challenging language and cultural barriers. Increased academic achievement and student engagement are expected outcomes for this goal. Parent liaisons utilize strategies that address the unique needs of unduplicated pupils and their families (including home visits), enhancing NVUSD’s liaison work between schools, homes, and communities in matters of health, welfare, attendance, and educational needs. An increase in parent engagement and communication are expected outcomes for this goal.

Low Income/Foster

Low income students continue to confront substantial challenges that stem directly from their experiences outside the classroom. Their needs range from direct academic services, family support, and enhanced capacity for teachers. Low income/foster student support has come in various forms, starting with tutoring, counseling, mentoring, and other individual or small-group academic interventions. District and school staff conduct home visits, provide referrals to community resources, and address basic needs such as backpacks, school supplies, clothing, and grocery gift cards. Foster/Homeless youth services are specifically designed to address the unique needs of students who require a sense of safety, stability, and belonging. They are designed in collaboration with community partners and agencies that specialize in issues such as educational rights, school of origin, etc. A reduction in chronic absenteeism and an increased academic progress are expected outcomes for this goal.

For Low Income/Foster students, the opportunity gap in achievement often stems from financial barriers. Additional services such as family resource centers and mental health support are concentrated in high-need schools to support students who have historically struggled. Low-income students and foster youth require not just additional time to achieve grade-level standards, but also individualized support from highly trained teachers. They need extended learning opportunities beyond the school day to accelerate academic progress, especially after the challenges of the pandemic. Adult-to-student connections are critical for low income and foster students. Socio-economically disadvantaged students and foster youth, whose sense of belonging in school has historically been lower than their peers and affected their academic performance. In the School Culture and Climate Survey, for example, these subgroups have tended to provide relatively fewer positive responses when asked whether they “feel close to people at school” or “feel like [they] are part of the school.” Feedback from educational partners has consistently called for proactive measures to engage students in learning. An increase in the graduation rate and the completion of A-G requirements are the desired outcomes.

Due to their limited access to mental health services, low-income students and foster youth are at greater risk of trauma, especially during and after the pandemic. More than ever, they require coordinated mental health assistance, family outreach, and referrals to district and community resources. Counseling services are part of NVUSD’s whole child approach to wellness, and the counseling team’s work has a specific emphasis on connecting with families who are experiencing trauma. This process includes not just reaching out to low income and foster youth (particularly those who have been disengaged), but also identifying the social-emotional resources that they and their parents
need. Counselors coordinate with other partners (both internal and external) to support families. The emphasis on reaching students and parents who have struggled to remain engaged principally benefits low income, who are experiencing higher rates of chronic absenteeism, trauma exposure, and other challenges beyond academics. Moreover, the emphasis on connecting families with social-emotional and mental health resources directly responds to a priority that families have articulated.

A student's social-emotional well-being may significantly hinder their preparation for rigorous learning. Low income students have less access to enrichment programs that open up opportunities to high school pathway programs, college, and careers. The needs of low-income students and foster youth are particularly acute in the midst of trauma exposure, necessitating direct services that account for their unique lived experiences. Low income students have historically seen lower rates of engagement and fewer opportunities to participate in enrichment activities that ultimately lead to improved academic performance. These challenges are linked to social-emotional learning, since music, art, and other such endeavors can enhance the well-being of low-income students and foster youth. Educational partners' recommendations have highlighted these non-academic educational experiences as a way to address chronic absenteeism and disengagement. Elementary music teachers provide weekly instruction for students at the elementary. The objective is to support low-income students who might otherwise have limited access to music instruction. Low income students have fewer opportunities to participate in non-academic programs that support their overall well-being, so elementary music creates experiences that principally benefit them. It promotes the healthy growth and development of children through the study, practice, and performance of music, and develops motor skills, brain functions, study habits, self-esteem, and teamwork.

Below is the same information provided above however the information is categorized by LCAP goals.

GOAL 1 - Students will graduate college and career ready.

(1) How the needs of foster youth, English Learners and low-income students were considered first.

Our unduplicated students have generally fallen behind their peers in English Language Arts and Mathematics academic performance. The issue appears to persist throughout our TK-12 system. Low-income students, English Learners, and foster youth require not just additional time to achieve grade-level standards, but also individualized support from highly trained teachers. They need extended learning opportunities beyond the school day to accelerate academic progress, especially after the challenges of the pandemic. These interventions were among the top priorities for educational partners.

(2) How these actions are effective in meeting the goals for these students.

Literacy support and mathematics support address the needs of English Learners in several ways. First, highly trained teachers who are skilled in research-based instructional practices and programs can help reteach ELA and math content in different ways, accounting for the experiences of English Learners. Additionally, tutoring and other interventions outside the regular day -- i.e., before school, after school, on weekends, or during intersession -- are designed to prioritize the highest-need students. They also often utilize materials that are particularly
effective in engaging and supporting unduplicated pupils. Literacy support and mathematics support employ instructional strategies and approaches that are tailored to the needs of English Learners. They are also structured and scheduled in ways that extend learning opportunities beyond the school day, which respond to educational partner feedback. The additional services are concentrated in high-need schools to support students who have historically struggled. Lastly, work based learning programs create educational experiences that uplift unduplicated pupils and other students who have been historically marginalized. An increase in the graduation rate and the completion of A-G requirements are the desired outcomes.

GOAL 2: Students will experience responsive and engaging pedagogy

(1) How the needs of foster youth, English Learners and low-income students were considered first.

This goal is principally directed at our English Learners. Adult-to-student connections are critical for unduplicated pupils. Feedback from educational partners has consistently called for proactive measures to engage Socio-economically disadvantaged students, English Learners, and foster youth, whose sense of belonging in school has historically been lower than their peers and affected their academic performance. In the School Culture and Climate Survey, for example, unduplicated pupils have tended to provide relatively fewer positive responses when asked whether they “feel close to people at school” or “feel like [they] are part of the school.” The use of culturally responsive teaching practices is a key priority, especially in building cross-cultural relationships that create more inclusive and engaging school communities. Culturally responsive teaching practices are integrated into core and elective content and instruction to provide engaging learning opportunities for students.

(2) How these actions are effective in meeting the goals for these students.

English Learner support comes in various forms, starting with classroom teachers, bilingual aides, and other staff members who can provide individual or small-group interventions that help students overcome language barriers. It also involves parent workshops, family communications, and other outreach efforts in other languages, most notably Spanish. Teachers benefit from professional development, coaching, technical assistance, and curricular resources that focus on English Language Development (ELD). Professional learning addressing ELs’ acquisition of English language proficiency and mastery of grade-level content standards, will be available to all teachers and administrators. English Learner services are specifically designed to address the unique needs of students who face language barriers. They are based on assessments that are deployed a few weeks into the school year after English Learners have reacclimatized to the school setting, and the assessments include interviews/surveys with EL students and families to support differentiation. NVUSD focuses on evidence-based effective pedagogy (instructional strategies with an emphasis on formative assessment practices), curricula (core subject content and English language development), assessment, interventions, and primary/heritage language development and instruction. Increase academic achievement and student engagement are expected outcomes for this goal.

GOAL 3: Parents will experience robust community communication, engagement and advocacy.

(1) How the needs of foster youth, English Learners and low-income students were considered first.
Socio-economically disadvantaged students, English Learners, and foster youth have historically experienced significant trauma and had limited access to social, emotional, and behavioral health-related services in their communities. Their families have also had the greatest needs in terms of engagement, particularly when it comes to language access. The Family Resource Centers are located at five sites (Napa Junction, McPherson, Phillips, Shearer and Snow) with high concentrations of low-income and English Learners.

(2) How these actions are effective in meeting the goals for these students.

The Family Resource Centers coordinate referrals to community resources, including basic needs (i.e., food and clothing), family assistance programs, immigration information, etc. The placement at five high-need schools makes it easier for low-income students, English learners, and foster youth to connect with both school and district staff. Parent engagement and outreach efforts include home visits and other methods that go beyond traditional mass communications, which tend to be insufficient for families of low-income students, English Learners, and foster youth. The additional parent engagement and outreach efforts principally benefit the neediest families, who require extra support to overcome challenging circumstances. Parent liaisons utilize strategies that address the unique needs of unduplicated pupils and their families (including home visits), enhancing NVUSD’s liaison work between schools, homes, and communities in matters of health, welfare, attendance, and educational needs. An increase in parent engagement and communication are expected outcomes for this goal.

GOAL 4: Students will thrive socially, emotionally and academically.

(1) How the needs of foster youth, English Learners and low-income students were considered first.

Due to their limited access to social-emotional and mental health services, low-income students, English Learners, and foster youth are at greater risk of trauma, especially during and after the pandemic. More than ever, they require coordinated mental health assistance, family outreach, and referrals to district and community resources. Counseling services are part of NVUSD’s whole child approach to wellness, and the counseling team’s work has a specific emphasis on connecting with families who are experiencing trauma. This process includes not just reaching out to unduplicated pupils (particularly those who have been disengaged), but also identifying the social-emotional resources that they and their parents need. Counselors coordinate with other partners (both internal and external) to support families. The emphasis on reaching students and parents who have struggled to remain engaged principally benefits unduplicated pupils, who are experiencing higher rates of chronic absenteeism, trauma exposure, and other challenges beyond academics. Moreover, the emphasis on connecting low-income, English Learner, and foster youth families with social-emotional and mental health resources directly responds to a priority that families have articulated.

(2) How these actions are effective in meeting the goals for these students.

A student’s social-emotional well-being may significantly hinder their preparation for rigorous learning. Unduplicated pupils have less access to enrichment programs that open up opportunities to high school pathway programs, college, and careers. The needs of low-income students, English Learners, and foster youth are particularly acute in the midst of trauma exposure, necessitating direct services that account for their unique lived experiences. Unduplicated pupils have historically seen lower rates of engagement and fewer opportunities to participate in enrichment activities that ultimately lead to improved academic performance. These challenges are linked to social-emotional
learning, since music, art, and other such endeavors can enhance the well-being of low-income students, English Learners, and foster youth. Educational partners' recommendations have highlighted these non-academic educational experiences as a way to address chronic absenteeism and disengagement. Elementary music teachers provide weekly instruction for students at the elementary. The objective is to support low-income and other unduplicated pupils who might otherwise have limited access to music instruction. Unduplicated pupils have fewer opportunities to participate in non-academic programs that support their overall well-being, so elementary music creates experiences that principally benefit them. It promotes the healthy growth and development of children through the study, practice, and performance of music, and develops motor skills, brain functions, study habits, self-esteem, and teamwork. The emphasis on increasing adult-to-student connections principally benefits unduplicated pupils, who are experiencing a sense of belonging at lower rates than their peers.

Foster/Homeless Youth continue to confront substantial challenges that stem directly from their experiences outside the classroom. Their needs range from direct academic services, family support, and enhanced capacity for teachers. Foster/Homeless youth support has come in various forms, starting with tutoring, counseling, mentoring, and other individual or small-group academic interventions. District and school staff conduct home visits, provide referrals to community resources, and address basic needs such as backpacks, school supplies, clothing, and grocery gift cards. Foster/Homeless youth services are specifically designed to address the unique needs of students who require a sense of safety, stability, and belonging. They are designed in collaboration with community partners and agencies that specialize in issues such as educational rights, school of origin, etc. A reduction in chronic absenteeism and an increase academic progress are expected outcomes for this goal.

Listed below are the specific actions identified to address the identified needs of each unduplicated group.

Low-income: The identified need for this subgroup was increased access to programs that provide rich and robust academic and enrichment opportunities. Goals 1.1 and 1.2, 2.1 and 4.1 focus on supporting low-income students.

English Learners - The identified need for this subgroup was increased support for acquiring English and communicating families. Goals 1.1, 1.2, 2.2, 2.3, 3.1, 3.2 and 4.3 focus on supporting our English Learners.

Foster/Homeless - The identified need for this subgroup was ensuring access, stability and support for learning. Goal 1.1, 1.2, 1.3, 3.1, 4.1 and 4.2 focus on supporting foster and homeless students.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

NVUSD utilizes an equity-based formula that adds additional classroom teachers, intervention teachers, counselors, social workers and parent liaisons to school sites based on the number of unduplicated students enrolled at the school. All school sites receive a base allocation.
of staffing and a percentage is added to increase the staffing based on the number of unduplicated pupils resulting in an equitable distribution of funding. This equity-based formula is also used when allocating extra funding for supplemental materials and supplies to school sites.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

NVUSD utilizes an equity-based formula that adds additional teacher staffing based on the unduplicated count and enrollment across all of secondary. All school sites receive a base teacher allocation and a percentage is added to increase the staffing based on the number of unduplicated pupils resulting in an equitable distribution of funding. The equity-based formula resulted in an overall increase of over 5 full time equivalent (FTE) positions totally approximately $600k. This amount far exceeds the additional funding received by NVUSD for the concentration grant add-on funding.

Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  
  - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year’s LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners
Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

**Local Control and Accountability Plan:**
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
• Inclusion of action(s) as contributing to increased or improved services for unduplicated services
• Determination of effectiveness of the specific actions to achieve the goal
• Determination of material differences in expenditures
• Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
• Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose
Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions
LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

• Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
• Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
• Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
Focus Goal(s)

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated
Goal Description: Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

Explanation of why the LEA has developed this goal: Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

Low-performing school(s) goal requirement: A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

Goal Description: Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

Explanation of why the LEA has developed this goal: Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.
Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “Measuring and Reporting Results” part of the Goal.

</tbody>
</table>

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in California Code of Regulations, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year.
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

**Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

*Projected LCFF Supplemental and/or Concentration Grants*: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.
**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.
Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:
School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40 percent or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

**A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.**

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
Table 2: Contributing Actions Table (for the coming LCAP Year)

Table 3: Annual Update Table (for the current LCAP Year)

Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

  See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage**: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —
Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

If “Yes” is entered into the Contributing column, then complete the following columns:

  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”

- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
• **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note**: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

• **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

• **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

• **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

• **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

• **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

**Contributing Actions Table**
As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  o Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
10. Total Percentage to Increase or Improve Services for the Current School Year: This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables
To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table
Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
• 7. Total Estimated Actual Expenditures for Contributing Actions
  o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

• Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

• 5. Total Planned Percentage of Improved Services (%)
  o This amount is the total of the Planned Percentage of Improved Services column

• 8. Total Estimated Actual Percentage of Improved Services (%)
  o This amount is the total of the Estimated Actual Percentage of Improved Services column

• Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

**LCFF Carryover Table**

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
  o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

• 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

• 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
• 13. LCFF Carryover — Percentage (12 divided by 9)
  
  o This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
