

LOHP ADVISORY COMMITTEE

To provide leadership and advocacy in improving oral health and the wellbeing of children in Napa County.

Did you know that children with poor oral health often miss more school and receive lower grades than children who don't? The Local Oral Health Program (LOHP) Advisory Committee collaborates with community partners, educators, dental clinics, and health providers to increase access and education on oral health issues affecting children.

Join us every 3rd Monday of the month from 2:00pm-3:00pm.
